Theo 128

Apr May 4.5.

For Sec. 1, amplify the last point on Thesis 13

Final thesis (14): The Method of ~~Modern empirical~~ ^{contemporary Catholic} theology will include eight functionally different but inter-related tasks. The eight tasks are derived from the four levels of consciousness ^(transcendental method) operating in each of the two phases of theology.

D	¹ Dialectic - 1	² Foundations - 5
J	History - 3	Doctrines - 6
U	Interpretation - 2	Systematics - 7
E	Research - 1	Communications - 8

Such a method allows for the development of doctrinal statements so that their truth can be expressed in new contexts without being compromised.
